Halo Care is a solution for older people who wish to remain in their own homes and need a little extra support. Through supportive technology that works seamlessly in the background, our customers have complete peace of mind when homecare or family carers cannot be there. Should an emergency occur, real-time information is sent to our Care Hub where trained specialists can react, respond, and reassure. Our intelligent devices can, for example, detect a fall even if the person is unable to call out for help. If you would like more information, please do not hesitate to contact Jonathan on 087 3168239 or Call 0818 7007002. An input on this 2pm this Wednesday in Mulcahy’s.
