

Spirit Space: Spirituality and the Big Questions

There are many big questions in life, especially when we contemplate the future. Questions such as ‘what makes my life significant?’ ‘how will I support myself?’ and ‘who will accompany me on my journey?’ However, arguably even bigger questions include ‘is there actually a God?’ and ‘what brings meaning to life?’

We are a small group of everyday people who have considered these questions and want to offer our thoughts in a series of short talks followed by a chance for you to discuss; no preaching, no piety, just a chance to air your own thoughts.
